Revolution in Efficiency

Viega's MANABLOC® is a revolution in efficient water distribution. With a MANABLOC system, each fixture in a house has a dedicated PEX distribution line supplied from a central manifold. This allows each line to be sized independently to deliver hot water or purge cold water rapidly. MANABLOC's breakthrough in efficiency saves time, energy and reduces water waste saving thousands of gallons of water per year. MANABLOC also reduces hot water waste by minimizing the length of plumbing distribution lines to help gain points toward LEED certification.

For more information, visit www.viega.com or contact us at insidesales@viega.com or 1-800-976-9819.

About Viega:

Founded in 1899, Viega manufactures and distributes the highest quality plumbing, heating and pipe-joining products in the world. With innovative systems like copper and stainless ProPress®, ProRadiant™ and PureFlow®, Viega is the global leader in residential, commercial and industrial piping applications.
