

FOR IMMEDIATE RELEASE

Date: June 17, 2010

Contact: Amy Williams, Web Content Specialist
316-425-7429 Ext. 892, amy.williams@viega.com

No Shovel Required

Without a shovel, Viega's S-no-Ice[®] system eliminates ice and snow from driveways, sidewalks and helicopter landing areas. S-no-Ice utilizes controlled ViegaPEX[™] barrier tubing installed in a concrete slab to thaw wintery precipitation through hydronic heating, enabling any residential, commercial or industrial setting to be snow-free. S-no-Ice initiates automatically when it detects precipitation and can prevent potential injuries due to slipping and falling. S-no-Ice also eliminates the preventative maintenance costs of salting or sanding, while adding to a home's resale value.

For more information, visit us on the web at www.viega.com or contact us by email at insidesales@viega.com or by phone at 1-800-976-9819.

About Viega:

Founded in 1899, Viega manufactures and distributes the highest quality plumbing, heating and pipe-joining products in the world. With innovative systems like copper and stainless ProPress[®], ProRadiant[™] and PureFlow[®], Viega is the global leader in residential, commercial and industrial piping applications.
