

Viega Enhanced Mixing Station

January 2012

viega

Viega Enhanced Mixing Station features and benefits:

- Ready to hang
- Factory tested
- Ideal for direct connect or remote locations
- Can be manually or electronically adjusted
- Versatile boiler side connections
- Compatible with most heat sources

Viega Circulator features and benefits:

Seven hydraulic modes:

- Automatically adjusts to your system demands
- Three fixed speeds
- Three constant pressure settings

Easy-to-use operation:

- One-touch operation mode navigation

- Real time LED displays
- Power consumption (Watts)
- Flow indication (GPM estimation)

Permanent magnet motor design:

- Four-times higher starting torque over standard induction motors
- Zero motor slip
- 5 to 45 Watts

Integrated controls:

- Compact drop-in design
- Electronics fully integrated
