

The Viega logo consists of the word "viega" in a bold, lowercase, sans-serif font, colored yellow, set against a black rectangular background. Below this, there is a solid yellow horizontal bar.

# Viega PolyAlloy™ PEX Crimp Manifold

## Features:

- Flow through and closed configurations
- Fast and easy to install
- Horizontal or vertical mounting
- Access panels not required
- Zero Lead™ compliant
- Corrosion resistant
- 10-year comprehensive warranty

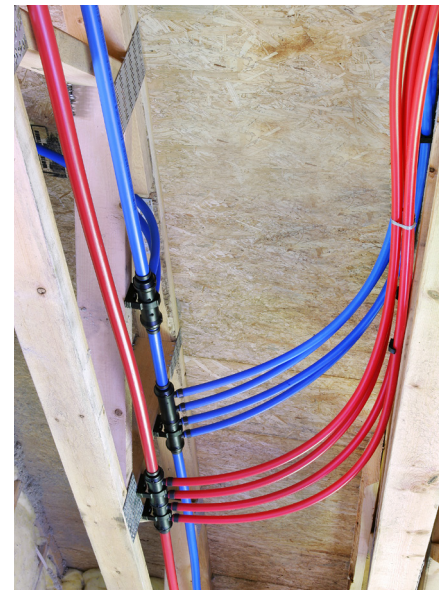

## Announcing Viega's PolyAlloy PEX Crimp Manifold

Viega introduces a new alternative for potable water distribution systems, the PolyAlloy PEX Crimp Manifold. They are easy to install and ideal for use where aggressive water conditions exist or where Zero Lead compliance is required. PolyAlloy PEX Crimp Manifolds can serve multiple fixtures from a single run location and not only reduces the number of fittings used but minimizes the number of fittings in the walls.

The PolyAlloy PEX Crimp Manifold complements the existing Viega Zero Lead PEX Crimp fitting offering that is already available in ECO Brass® and PolyAlloy (Acudel®). Coupled with Viega's PEX tubing, this provides an economical and reliable connection system backed by the industries most comprehensive warranty.

Mounting Lock Clip (Sold separately)

The global leader  
in plumbing, heating  
and pipe joining systems
