

Viega Rapid Grid™

January 2012

Viega Rapid Grid features and benefits:

- Versatile
 - Fits 3/8", 1/2" and 5/8" ViegaPEX™ Barrier tubing
 - Fits 1/2" Viega FostaPEX® tubing
- All-in-one: insulation, vapor barrier and grid system to secure tubing
- 2" thickness of insulation equivalent to R-10 thermal resistance
- Compressive resistance at 10% deformation at 25 psi/3600 psf
- Easy lay down/interlock system with no taping required
- Able to walk pipe in for a quick and easy installation
- Save on materials because no fasteners required
- Cuts radiant heat installation time by as much as 2/3
- 64 square feet of material per bag (eight panels per package)
- Incredible labor savings due to needing only one installer for PEX installation
- Lightweight grid
