Stability Meets Flexibility in Viega's FostaPEX[®]

FostaPEX is Viega's innovative solution for plumbers and homeowners seeking products that are easy to install and guaranteed to function. FostaPEX, or Form-Stable PEX, balances stability with flexibility to create a product that not only bends with ease but also holds its shape. Its aluminum and PE outer layers make this possible, while also providing extended protection from UV exposure. FostaPEX comes in red or silver tubing for color coding and, since FostaPEX is lead-free, it is perfect for potable water systems.

Visit us on the web at www.viega.com or contact us by email at insidesales@viega.com or by phone at 1-800-976-9819.

About Viega:

Founded in 1899, Viega manufactures and distributes the highest quality plumbing, heating and pipe-joining products in the world. With innovative systems like copper and stainless ProPress[®], ProRadiant[™] and PureFlow[®], Viega is the global leader in residential, commercial and industrial piping applications.
