### Viega's Stainless Manifold Now Offers Flow Meters

Viega's ProRadiant® Stainless Manifold is the most efficient option for closed loop hydronic heating, cooling and snow melting. This manifold system includes not only the standard shut-off and balancing valves but also flow meters for each set of circuits. With a flow rate of up to 2 gallons per minute, the 1-1/4" diameter stainless supply-and-return manifolds come attached to two 6-5/8" spacing brackets perfect for compact remote mounting. In a world of manifold options, Viega is the clear choice. Visit us on the web at [www.viega.com](http://www.viega.com), contact us by email at [insidesales@viega.com](mailto:insidesales@viega.com) or call us at 1-800-976-9819.

#### About Viega:

Founded in 1899, Viega manufactures and distributes the highest quality plumbing, heating and pipe-joining products in the world. With innovative systems like copper and stainless ProPress®, ProRadiant™ and PureFlow®, Viega is the global leader in residential, commercial and industrial piping applications.
